

Remarks

In response to the "Notice to File Corrected Application Papers" (hereinafter "the notice") having a mailing date of March 18, 2004, a copy of which is attached hereto as required, Applicants have prepared this paper to amend the specification to correct the description of Figure 6 and Figure 7 in the specification and to correct the legends of Figure 6 and Figure 7 as filed. Applicants assert that the amendments to the specification and the legends of the referenced figures contain no new matter.

Applicants respectfully request that the attached revised Figure 6 and Figure 7 replace the figures as originally filed. The changes required by the notice were necessary to correct informalities in the drawings under 37 CFR 1.84(o). No new matter is added as a result of the correction of these informalities.

Applicants respectfully assert that all amendments are fairly based on the specification, and respectfully request their entry.

Respectfully submitted,

AMERSHAM BIOSCIENCES CORP
